Age segment 17-24 years old

North Zealand youth educational institutions - Police

High schools, Trade schools, Technical schools, Social and Healthcare schools etc.

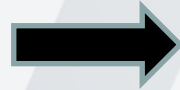

The Council for Safe Traffic has live visits adapted to the age groups

Review in the collaboration with youth educational institutions

North Zealand youth educational institutions

- Highschools, Tradeschools, Technical schools (crafts), Social and Healthcare schools etc.

Youth educational institutions have geographically divided steering committees (SUN) (knowledge sharing)

Initial meeting with The SUN steering committee "Hillerød" armed with good data from the Council for Safe Traffic

Traffic network Northzeeland has set up a contact group with principals, directors, etc. from the youth educational institutions

Several youth education representatives attend the contact meetings

Education Fair April 2024

Experience and status of the collaboration

Big difference in time available between the institutions:

- More time available at the technical schools, trade schools and Social and Healthcare schools
- Less time available for the upper secondary educations

Police district offers visits:

- At the institution's student assemblies (10-minute pep talk)
- After a previous Traffic Safety Live visit performed by the council for safe traffic (RFST)
- Attendance with a Mobile police station in the school yard after a Traffic Safe Live visit

Status of the collaboration:

- Contact groups meetings every six months
- RFST participates in the meetings
- 18 RFST-Live visits since approx. 1/9-22
- 1 police visit to a technical school
- The activity opportunities are shared between the institutions.
- Police presentation at annual workshop for all SUN groups

POLITI
